

441—103.11(218) Program assignment. Residents will be assigned to specific cottage programs, educational and vocational programs and special services, such as drug counseling, family therapy, or similar services, to meet the needs of each individual resident, taking into consideration the limitation of the availability of space and specific programs. It is the responsibility of the superintendent to notify the court when appropriate space or program is not available and to deny admission until these needs can be met.

This rule is intended to implement Iowa Code section 218.4.
